---

## CEO Statement or Remarks

For me Raw-Co is a place which all of my dreams and ideals had been arriving in: a home that its door is always open to my best friends and dears. With a heart full of kindness, I'm trying to welcome their arts. Because if it wasn't the kindness from the first, the bricks of the home wouldn't be existing.

All happens because we look our audiences and new buyers as our nowadays and perdurable partners.

## Raw Introduction

This company has started its activities since **2017**, and it has produced and distributed many successful works to appear in the international arena. **“RAW”** International Company is composed of young staff who all have a common concern called **“Art”**.

In this introduction we mentioned some of the most important works and activities but, it's impossible to tell every single detail in one file, so as to check all of our works, you can visit our website and our social medias.

## About Us

“RAW” International Company is composed of young staff who all have big dreams and the difficulty. They’re doing their job in this historical complication of only with hope’s help power and acknowledgment of our artists’ art. We would have different thoughts about things but, there is motto we trying to obligated to; with the support of young and expert colleagues all of us trying to fulfill our motto “Together Each Achieve More” even it’s as inaccessible as THE ART.

At least we’re all young whose all graduated from the best art colleges; besides we passed many workshops and we had been got some real achievements: all of these achievements earned by being in art spaces and progressive educations. Nowadays we believe it’s necessary to do something to make our real goals real.

Maybe it’s our responsibility, maybe it’s not; but we trying to develop a structural graft between art & industry: for reaching this goal we’re only searching among the bests for finding our partners; we have a huge respect for cultural societies, Entrepreneurs, Top Creators and Knowledge-based companies. We know that every kind of relation and contact with them help us to improve ourselves and making us being seen.
